CBSE Class 12 Physics Code 042 MARKING SCHEME

Annual Examination 2024 - Solution & Step Marking

Q1: Statement of Gauss Law phi = q_enc / epsilon_0 [1 mark]
Cylindrical Gaussian surface drawing and flux calculation [1 mark]
Electric field E = lambda / 2 * pi * epsilon_0 * r [1 mark]

Q2: Path difference delta x = x * d / D [2 marks]
Condition for bright fringe: delta x = n * lambda [1 mark]
Fringe width beta = x_n+1 - x_n = lambda * D / d [2 marks]
